Hiring Manager

[Nombre de la empresa]

[Dirección o solo "Remote"]

Dear Hiring Manager,

I'm applying for the Data Scientist role at [Company Name]. With IBM, Google and TripleTen certifications and hands on experience in Python, SQL and machine learning I'm sure I can help your team find insights and deliver results.

I've built and deployed predictive models, created dashboards in Tableau and Power BI and recently completed a customer churn project that beat the business F1 score. I enjoy solving complex problems and turning data into solutions.

I like your mission and would love to be a part of it. Thanks for considering my application — looking forward to talking to you about how I can help your team.

Best regards,

Luis Osvaldo Silva Orozco
